Education

SRM University	**Aug. 2022 - June 2026**
B.Tech in Computer Science — CGPA: 8.43	*Sonepat, Haryana*

Experience

Data Analyst Intern | NullClass   **Jan. -Feb. 25**

- Leveraged Python (Pandas, NumPy, Matplotlib) to clean, analyze, and visualize large datasets for actionable insights.
- Automated data processing tasks with custom Python scripts, significantly reducing manual effort.
- Collaborated with cross-functional teams to develop comprehensive data reports supporting strategic decision-making.

Space Intern | Agnirva Space Internship Program   **Nov. 24- Jan. 25**

- Successfully completed an 8-week (80+ hours) internship under the guidance of Agnirva.com, focusing on space science and technology.
- Collaborated on simulations and innovative projects, showcasing technical expertise and creativity.
- Earned recognition for a proactive approach and resilient performance throughout the program.

Website Development Intern: Wetick   **May -Aug 2024**

- Collaborated on the development of user-centric and responsive websites using cutting-edge web technologies.
- Acquired hands-on experience in developing websites with modern tools and techniques.
- Contributed to developing user-friendly and responsive websites.
- Gained proficiency in modern frameworks and tools to ensure robust and scalable solutions.

Projects

ERP Portal Development| *Python, Django framework, SQLite*

- Built a full-featured ERP portal using Django and SQLite.
- Designed modules for Student Information, Course Management, and Faculty Administration.
- Integrated secure user authentication and role-based access control.

Chilli Chatka - Restaurant Website Development | *HTML, CSS, JavaScript*

- Designed and developed a responsive restaurant website using HTML, CSS, and JavaScript, ensuring compatibility across devices.
- Integrated third-party services such as Zomato and Swiggy for seamless online ordering.
- Enhanced user experience with a visually appealing design, incorporating a custom color palette and logo.
- Added features like a contact form, menu, testimonials, and gallery to enhance user experience.

Task Master |*HTML, CSS, JavaScript, Flask framework, SQLite*

- Designed and implemented a To-Do List Application using HTML, CSS, JavaScript, and Python (Flask).
- Developed a RESTful API for task management with persistent data storage in SQLite.
- Enhanced user experience with a responsive design and real-time task operations (add, edit, delete, complete).
- Incorporated a modern UI leveraging custom CSS animations and dynamic DOM updates using JavaScript.
- Gained experience in frontend-backend integration and database management.

Technical Skills

- **Languages:** C, Java, Python, Html & CSS
- **Framework:** Django, Bootstrap, Flask
- **Tools:** Visual Studio, GitHub, Gitbash, Docker
- **Databases:** SQL, SQLite
- **Soft Skills:** Problem Solving, Leadership, Public Speaking, Management Skills

Certifications and Achievements

- Complete Python & Python OOP with Exercises & Projects in 2024 on Udemy -June 2024
- Web Development Wizardry: HTML & CSS Course for Beginners on Udemy -August 2023
- TCS iON Career Edge - Young Professional -Dec 2024
- Unstop Talent Park - March 2025
